

### **REMARKS/ARGUMENTS**

Applicant would like to thank the Examiner for the careful consideration given the present application. The application has been carefully reviewed in light of the Office action, and amended as necessary to more clearly and particularly describe the subject matter which applicant regards as the invention.

Applicant appreciates the allowance of claims 4 and 5 and acknowledges that the prosecution on the merits has been closed. As described below, the present amendments are submitted to resolve outstanding formal matters.

The Examiner has required a new title that is clearly indicative of the invention to which the claims are directed. The title has been appropriately amended in accordance with this requirement.

The specification has been objected to for informalities. These informalities have been corrected by amendment herein. Further, the specification has been amended to add description of FIGS. 38-41 to the Background of the Invention section.

Drawing figures 2 & 10 have been objected to for various errors contained therein. The drawings have been appropriately amended herein to obviate the objections. Specifically, in Fig. 10, "DATA SETTING DEVIVE" has been amended to read --DATA SETTING DEVICE-- and "ASK DEMODULATION SECTION" has been amended to read --ASK MODULATION SECTION--; in Fig. 2, "LASOR" has been amended to read "LASER." Further, Fig. 21 has been amended to correct a typographical error, wherein "STRAGE SECTION" has been amended to read --STORAGE SECTION--.

In light of the foregoing, it is respectfully submitted that the present application is in a condition for allowance and notice to that effect is hereby requested. If it is determined that the
